

# AUDIT TRAIL – Software to track data

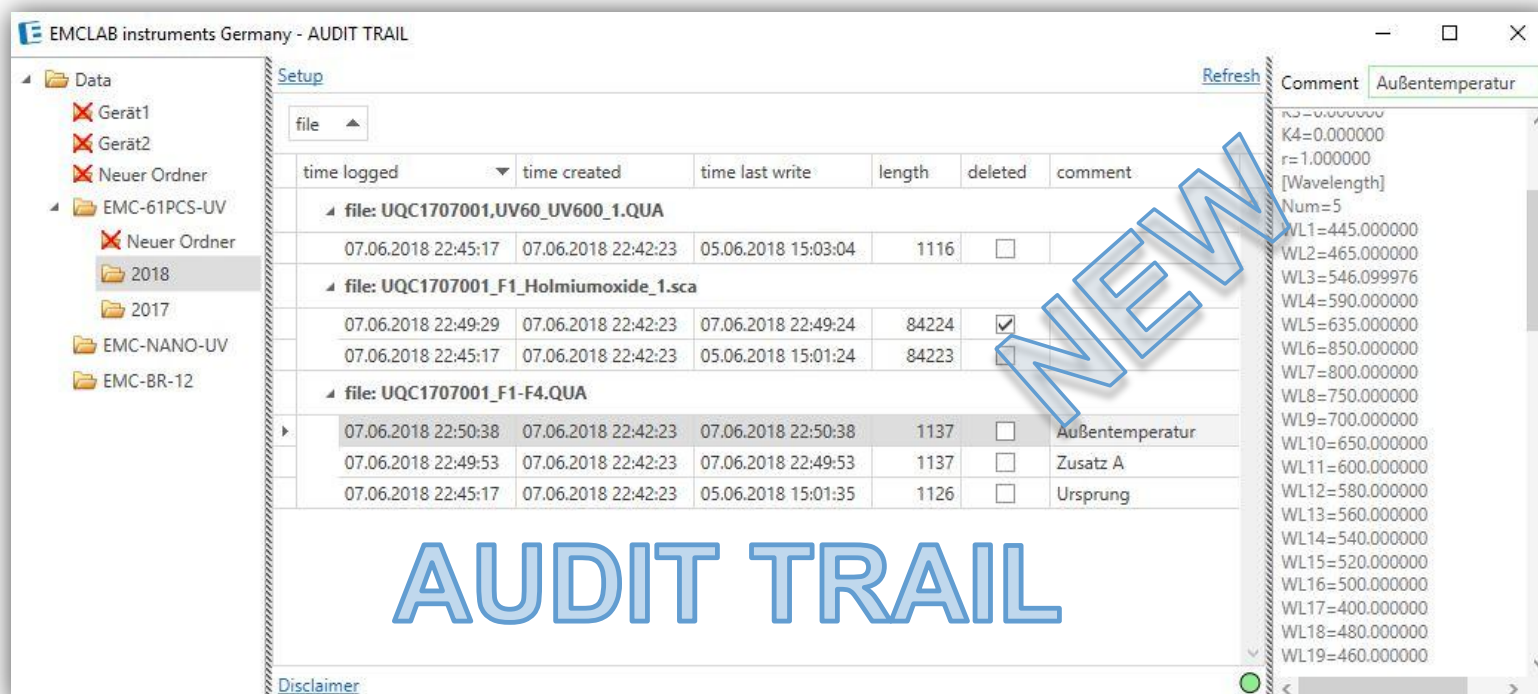

Now available in accordance with 21 CFR part 11 compliance which includes audit trails, versioning, life cycles and a complete solution for all data for EMCLAB UV/VIS Spectrophotometer software.

## EMCLAB – AUDIT TRAIL

The new developed software to track results measured with EMCLAB UV/VIS Spectrophotometers.

AUDIT TRAIL software is optionally available for selected instruments.

The screenshot shows the 'EMCLAB instruments Germany - AUDIT TRAIL' software interface. On the left is a file explorer showing a directory structure with folders like 'Data', 'EMC-61PCS-UV', 'EMC-NANO-UV', and 'EMC-BR-12'. The main window displays a table of audit trail entries with columns for 'file', 'time logged', 'time created', 'time last write', 'length', 'deleted', and 'comment'. A 'Setup' window is overlaid on the table, showing a detailed view of a selected file entry. The 'Comment' field in the setup window contains a list of wavelength values (WL1 to WL19).

| file                                   | time logged         | time created        | time last write     | length | deleted                             | comment         |
